

## Web-Based Training (WBT) Options

### National Highway Institute (NHI)

NHI provides a free online version of the National TIM Responder Training course. The course includes an overview and nine lessons and takes approximately four hours to complete. The lessons are narrated and include knowledge check questions. To receive a completion certificate, students are required to score 70% or higher on the 20-question final exam. Students are also prompted to complete a course evaluation prior to being able to print their course certificate.

1. Register for an NHI account:  
<https://www.nhi.fhwa.dot.gov/>
  - » Start by clicking 'Create an Account' under the New Users header on the left of the home page, or click 'Login' at the top of the home page and then complete the information for a new user
2. Search for course 133126A and add it to your cart
3. Proceed to Checkout, review shopping cart, confirm e-mail address, and receive confirmation
  - » The course can now be accessed by clicking 'My Training' at the top of the page
4. Launch the course and start by providing some simple registration information, then complete the overview and all nine lessons
  - » Users will have six months to complete the course before their registration expires
5. Pass the final exam
6. Return to the My Training page and take the course evaluation
7. Print/download your course completion certificate

### ResponderSafety.com Learning Network

FHWA worked closely with the Emergency Responder Safety Institute (ERSI) to review the training modules they have available through the Responder Safety Learning Network (RSLN). It was determined that if individuals complete the following ten RSLN modules they will have covered all 33 lesson objectives of the National TIM Responder Training course:

- Advance Warning
- Blocking Procedures at Roadway Incidents
- High Visibility Innovations
- Manual on Uniform Traffic Control Devices (MUTCD)
- Move It or Work It
- See and Be Seen: Emergency Lighting Awareness
- Special Circumstances: Safe Operations for Vehicle Fires
- Special Hazards
- Termination
- TIM: Incident Command & Management

Once an individual completes all ten modules, they are able to download a special certificate that is equivalent to completing the National TIM Responder Training course. It is important to note that past completions count towards the certificate, so individuals may only need to take one or two additional modules to receive their certificate.

To obtain your National TIM Training certificate:

1. Register for an RSLN account:  
<https://learning.respondersafety.com>
2. Select National TIM Training from the menu on the left side of the page
3. Complete and pass the Skills Challenge tests for all ten modules
4. Obtain an RSLN certificate for each module
5. Obtain a National TIM Certificate after successful completion of all ten modules
