

Principles of Instruction

Some of the classes will be ran at Taylor Training Grounds primarily for JFD. These courses will also be opened up to anyone from the county that wishes to take the course. The last course will be ran at the EOC in Mayville.

This course is designed for fire service training officers and company officers. **As a reminder, this course is a prerequisite for Fire Service Instructor 1.**

All of the first four daytime courses at Taylor will be ran with the same format. Day one will cover units 1 and 2, day two will cover units 3, 4, and 5. If a student wants, they can attend day one on one date, and then attend any day two dates. The student HAS to attend the day one classes first.

The students must sign up for the day one course on LMS that they want to start on. Students are encouraged to take Day 1 followed by Day 2 sessions to continue course continuity, but the option exists for the split sessions.

All of these first four courses will be at Taylor Training grounds.
